Mr. Darrell Herman  
Lone Star Northwest  
PO Box 1730  
Seattle, WA 98111

Dear Mr. Herman:

**RE: ISSUANCE OF GENERAL PERMIT NO. WAG-50-3191**  
**(PLEASE REFER TO THIS NUMBER IN ALL CORRESPONDENCE)**

The Department of Ecology acknowledges receipt on October 3, 1994 of your Notice of Intent (NOI) for coverage under the General Permit to Discharge Process Water or Storm Water Associated with Sand and Gravel Mining, Rock Quarries and Similar Mining Operations, Including Stockpiles of Mined Material, Concrete Batch Operations, and Hot Mix Asphalt Operations. Based on the information provided in your NOI for Lone Star Northwest located at 5975 E Marginal Way S, WA 98134, your facility is eligible for coverage under the General Permit.

Enclosed is your Waste Discharge Permit No. WAG-50-3191 which has been issued in accordance with Chapter 90.48 RCW, as amended, and the Federal Water Pollution Control Act, as amended. Also enclosed is the Fact Sheet and a supply of Discharge Monitoring Report (DMR) forms for your use in accordance with the conditions stated in the permit.

The Department of Ecology, in response to the passage of Initiative 97 in 1988, has adopted a regulation to recover costs associated with the issuance and administration of Wastewater Discharge Permits (Chapter 173-224 WAC).

The annual fee for both industrial and municipal/domestic dischargers is computed based on the permit fee schedules contained in that regulation. The Department shall notify permit holders of fee charges by mailed billing statements. Failure to pay the applicable permit fee may result in the suspension or revocation of the permit, and could result in the issuance of civil penalties or actions to enjoin the activity under the permit. Please contact Bev Poston at (206) 407-6425 with any fee related questions.

Application for renewal of the enclosed permit must be filed with this Department at least 180 days prior to the expiration date of this permit.

Please send any correspondence regarding this permit (including any required Discharge Monitoring Reports (DMR) and submittals) to the following address:

Washington State Department of Ecology  
Northwest Regional Office  
Attn: Permit Coordinator  
3190 160th Avenue SE  
Bellevue, WA 98008-5452

Thank you for your cooperation and the time and effort you put into completing your application. Please feel free to contact John Drabek at (206) 649-7293 if you have any questions.

Sincerely,

  
John H. Glynn
